STOP HIV. STOP AIDS.

**Voluntary
Counseling
& Testing**

PANGAKO...BUHAY KO...PANANAGUTAN KO!

What is VCT?

- **Voluntary HIV counseling and testing (VCT)** is a **confidential** counseling and HIV Antibody testing offered by DOH accredited and licensed laboratories, clinics and hospitals.

Who should undergo VCT?

- Anyone who thinks that he or she has any of the following risks of getting HIV should seek VCT.
 - Unprotected sex with multiple partners
 - Unprotected sex with person of unknown HIV status
 - Injecting prohibited drug

* The Philippine AIDS Prevention & Control Act of 1998 (RA 8504) mandates the voluntary nature of the HIV Antibody test.

What are the benefits of VCT?

- Protection of self and loved ones from HIV and AIDS
- Access and network with services (Medical, Psychosocial, Emotional, Spiritual, Legal, Palliative, etc.)

What steps will the client undergo?

1. Pre-test counseling

2. HIV antibody testing

3. Post-test counseling

Where can I avail of VCT?

Treatment Centers/Telephone Nos.
