

Catanduanes State University

ANNUAL REPORT 2025

About the COVER

This year, the design of the 2025 Catanduanes State University Annual Report symbolizes growth, resilience, and sustainability. The mangrove trees represent the University's achievements in 2025—strong, thriving, and rooted in service to the community and environment. The water elements signify continuity, progress, and the steady flow of knowledge and innovation, while the mud crab icons reflect local identity, resourcefulness, and the University's connection to coastal communities and sustainable development. The design highlights a year of meaningful accomplishments grounded in environmental stewardship and community engagement.

Chairperson, Commission on Higher Education

Your Excellency:

Greetings from the Catanduanes State University!

It is with great honor and respect that we submit to your esteemed Office the Annual Accomplishment Report of Catanduanes State University (CatSU) for Calendar Year 2025, in accordance with the provisions of Republic Act No. 8292, also known as the "Higher Education Modernization Act of 1997"

This report highlights the University's key accomplishments, milestones, and initiatives over the past year, made possible through the dedication and collaborative efforts of the entire CatSU community.

The achievements presented herein reflect CatSU's ongoing contribution to the country's national development agenda and remain aligned with the Commission on Higher Education's ACHIEVE Agenda, which continues to guide reforms in access, quality, and relevance in higher education.

This document stands as a testament to CatSU's steadfast commitment to its vision of delivering excellent and relevant service to the nation through instruction, research, production, and extension.

We reaffirm CatSU's enduring dedication to supporting national development and our resolve to pursue even greater achievements in the years ahead.

Maraming salamat po!

Very truly yours,

(SGD.) GEMMA G. ACEDO, PhD, DIT

SUC President III

Vision

A globally-recognized green research University committed to excellent service to the nation

Mission

Foster excellence, holistic and inclusive education attuned to the demands of a diverse world towards the formation of productive and value-laden lives

Goal

Uphold the tradition of excellence in instruction, research, extension and production geared towards a strong academe-industry interface for societal development

Core Values

Social Responsibility – the University takes part in the collective duty in improving the quality of life in the society.

Excellence – the University commits to high standards in all aspects of its four-fold functions.

Commitment – the University continuously thrives to achieve its vision, mission and goal based on its value system.

Respect – The University honors the rights, beliefs, and dignity of every individual to promote peace and harmony in the community.

Integrity – the University maintains the highest ethical standards and demonstrates honesty, objectivity, and fairness at all times.

Mandate

Pursuant to RA 10229 the Catanduanes State University is mandated to primarily provide advance education, higher technological, professional instruction and training in trade, commerce, fishery, agriculture, Arts and Sciences, Industrial Technology, Nursing, Midwifery, Education, Engineering, Public Administration, Information Technology, and other relevant fields of study. It is also directed to undertake research and extension services, and provide progressive leadership in its areas of specialization.

Quality Policy

The Catanduanes State University commits to satisfy its clientele and all applicable requirements through the continual improvement of its quality management system processes, ensuring excellence in instruction, research, and community service for societal advancement.

Catanduanes State University — the leading and only premier higher education institution in the island province of Catanduanes, founded in 1961, is among the dynamic state universities and colleges in Bicol.

Its origins trace back to Republic Act 3398, which established the Virac National Agricultural Trade School (VNATS) on June 18, 1961. A decade later, Congressman Jose M. Alberto authored Republic Act 6341, which transformed VNATS into Catanduanes State Colleges (CSC) on June 19, 1971.

CatSU began as a tertiary institution on December 1, 1971, offering courses such as Associate in Business Education, Associate in Commerce, Bachelor of Science in Education, Master of Arts in Education, and Master of Arts in Commerce.

By July 8, 1972, additional programs were introduced under Republic Act 6590. In 1996, the Tenth Congress of the Philippines passed Republic Act No. 8292, which standardized the composition and powers of governing boards of state universities and colleges, as well as the appointment and term of office of their presidents.

In 1999, the Catanduanes Agricultural and Industrial College (CAIC) in Panganiban was integrated into CSC, in line with the Commission on Higher Education's (CHED) FY 1999 Budget provisions. By 1993, CAIC was renamed CSC Panganiban Campus, following a revised organizational structure approved by the Board in Resolution No. 15, s. 2003.

The long-held dream of establishing a university on the island was realized on March 29, 2011, when then Congressman Cesar V. Sarmiento filed House Bill No. 4170 during the 15th Congress.

This bill sought to convert CSC into a state university. A year later, on October 19, 2012, President Benigno Simeon S. Aquino III signed Republic Act No. 10229, officially transforming Catanduanes State Colleges into Catanduanes State University, encompassing two campuses, the Virac/ Main Campus and Panganiban Campus.

The main campus is situated at Calatagan Proper in Virac, the capital town, while the CatSU–Panganiban Campus (formerly the Catanduanes Agricultural and Industrial College or CAIC) is located in the northern municipality of Panganiban.

The university's leadership history began with Pedro G. Tabuzo, who served as its pioneering president from 1971 to 1972. Subsequent presidents and officers-in-charge included Dr. Jacinto A. Medallada (1972-1986), Dr. Rodolfo V. Azanza (1986-1990), Dr. Ernestina P. Averilla (OIC, 1990-1992), Dr. Adolfo S. Bagadiong (1993-2003), Dr. Asuncion V. Asetre

(2003-2011), Dr. Minerva I. Morales (2011-2019), Dr. Freddie T. Bernal (OIC, 2019-2021), Dr. Patrick Alain T. Azanza (2021-2024), and Atty. Septon A. de la Cruz (OIC, 2024-2025), and Dr. Roberto B. Barba, Jr. (2025).

Today, CatSU serves over 15,000 students across two campuses—Virac and Panganiban, and offers undergraduate and graduate programs, including its newest Juris Doctor program.

Recognized for quality instruction and management, CatSU is the first education institution in the province to earn ISO 9001:2015 certification. It is also a CHED Level III SUC, ranking globally in innovation and sustainability.

Mandated by law, CatSU delivers advanced education and professional training in diverse fields—from agriculture and technology to law and nursing—championing research, innovation, and community service.

Under the new leadership of the University's 8th President, Dr. Gemma G. Acedo, CatSU embraces a bold vision: "To become a transformative, sustainability-driven university, powered by innovation, and dedicated to a resilient island ecology."

Her goals are clear:

- Deliver world-class instruction and lifelong learning.
- Advance groundbreaking research and sustainable solutions.
- Empower communities through inclusive programs.
- Lead green initiatives for ecological resilience.
- Expand global partnerships for academic excellence.

These goals align closely with the Commission on Higher Education Chairperson Dr. Shirley C. Agrupis, and her seven-point ACHIEVE agenda—promising strategic action.

CatSU's strategic directions also align with CHED Region V "BICOL" slogan—Building Institutions as Champions of Optimum Life-long learning—calls on universities like CatSU to lead with innovation, excellence, and lifelong learning.

The HIGH-FIVE eight-point agenda guides holistic education, equitable access, global partnerships, cultural preservation, future-ready programs, research, collaborations, and community empowerment.

Catanduanes State University — building champions of lifelong learning, innovation, and sustainability.

Together, shaping a better future for Catanduanes, for Bicol, for the Philippines, and for the world.

Message from the **University Leaders**

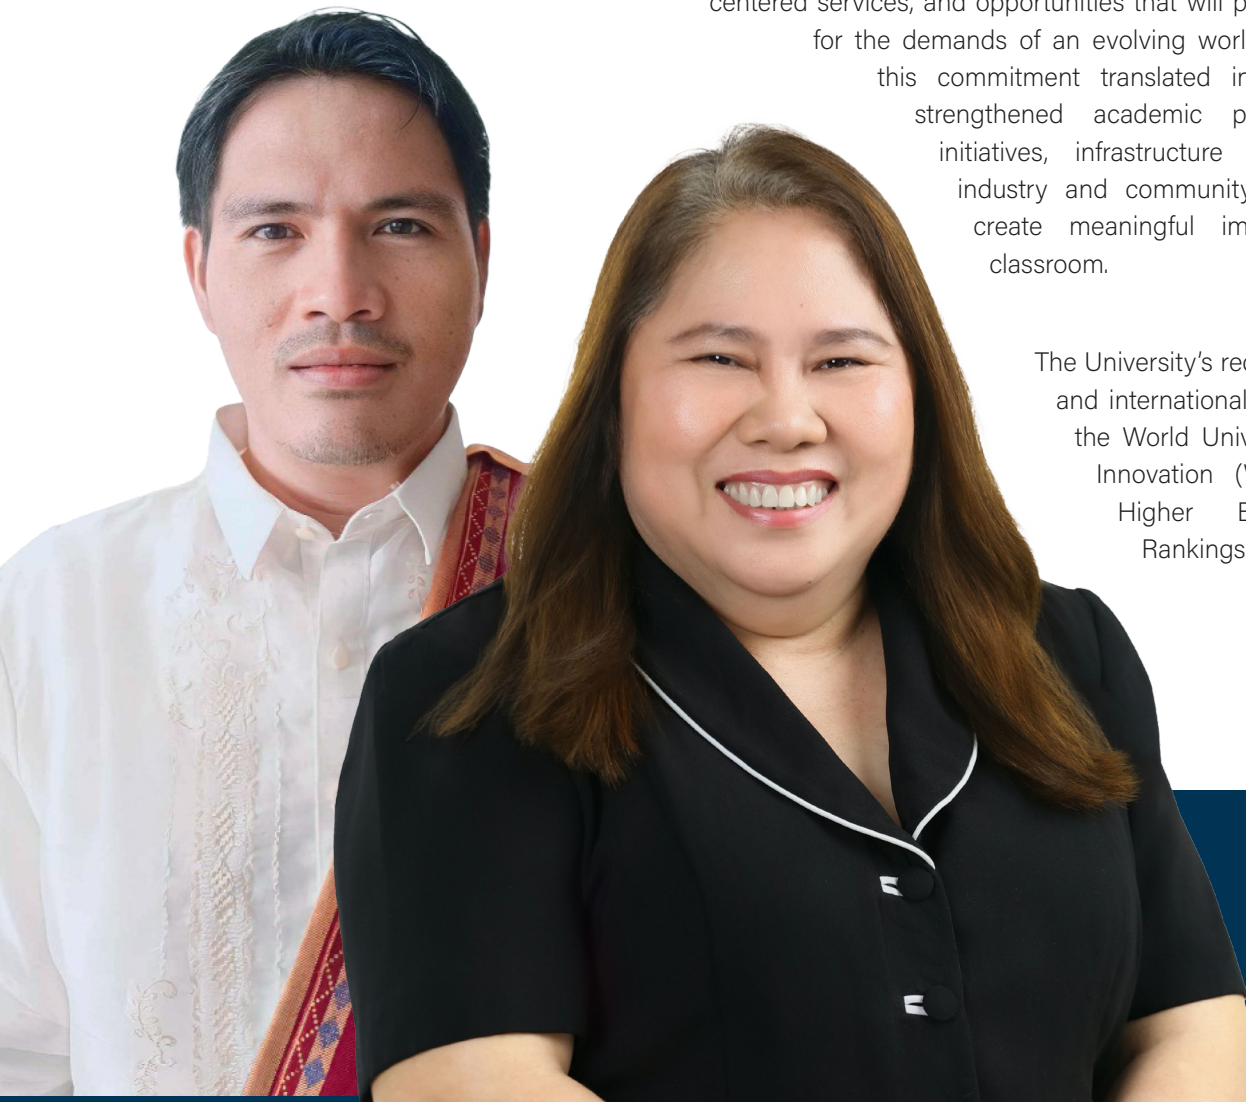

The year 2025 was a meaningful and transformative period for Catanduanes State University as it marked both continuity in leadership and a renewed direction for the institution. CatSU remained steadfast in its commitment to academic excellence, innovation, public service, and institutional growth.

Throughout the year, the University achieved important milestones that reflected the dedication and collective efforts of our faculty, staff, students, alumni, and partners. From consistently strong performances in licensure examinations and national recognitions to growing research productivity, strengthened community extension programs, and expanding international and local linkages, CatSU continued to move forward with purpose and resilience.

The accomplishments highlighted in this Annual Report are not only indicators of institutional performance but also reflections of the people behind them—individuals who continue to believe in the University's mission of transforming lives through quality and accessible education.

As CatSU's student population continues to grow, so does our responsibility to provide responsive programs, learner-centered services, and opportunities that will prepare our students for the demands of an evolving world. In 2025, we saw this commitment translated into action through strengthened academic programs, research initiatives, infrastructure development, and industry and community partnerships that create meaningful impact beyond the classroom.

The University's recognition in national and international rankings, including the World University Rankings for Innovation (WURI) and Times Higher Education Impact Rankings, affirms that CatSU

is steadily gaining ground not only as a local institution of learning but also as a globally engaged University committed to sustainability, innovation, and social responsibility.

We also recognize that these achievements were made possible through collaboration, trust, and shared vision. The support of government agencies, partner institutions, local communities, alumni, and stakeholders has greatly contributed to the University's continued growth and development.

As we move forward, CatSU remains committed to strengthening instruction, advancing research and innovation, expanding extension services, and upholding transparency and accountability in governance. While challenges continue to evolve, we remain hopeful and determined to build a University that is more responsive, inclusive, future-ready, and grounded in service to the people of Catanduanes and beyond.

We extend our sincere gratitude to everyone who became part of CatSU's journey in 2025. Together, we continue to shape a University that aspires not only for excellence, but also for meaningful impact in the communities we serve.

Executive Summary

A Year of Growth and Forward Momentum

The year 2025 marked another significant chapter in the continuing growth of Catanduanes State University (CatSU) as it strengthened its role as the island province's leading institution for higher education, research, innovation, and community development. Guided by then Officer-in-Charge Dr. Roberto B. Barba, Jr. and later by the University's 8th President, Dr. Gemma G. Acedo, CatSU sustained its commitment to academic excellence, responsive public service, and transformative education.

Expanding Access to Quality Education

Throughout the year, the University expanded opportunities for learners across Catanduanes and nearby regions. CatSU's student population continued to grow steadily, reflecting increasing trust in the University's quality and accessibility of education. From just over a decade ago as a local college, CatSU has steadily evolved into a major regional academic hub, serving more than 14,500 students in 2025 through its Main and Panganiban campuses.

The University offered 65 undergraduate degree programs, 18 graduate programs, two diploma programs, and a Juris Doctor program under the College of Law. The continued rise in enrollment also reflected CatSU's expanding academic offerings in fields such as Engineering, Health Sciences, and Technology, while remaining accessible through the Universal Access to Quality Tertiary Education Act.

Strong Performance in Licensure Examinations

Academic performance remained one of CatSU's strongest achievements in 2025. The University celebrated multiple national milestones in licensure examinations, highlighted by alumni who ranked among the country's top examinees.

Kym Lyan S. Terrago ranked 4th nationwide in the September 2025 Licensure Examination for Professional Teachers (Secondary Level), becoming the first English major from the College of Education to place nationally. Crystal Jayden E. Taperla placed 9th nationwide in the Philippine Nurses Licensure Examination, and the College of Health Sciences achieved a remarkable 98% passing rate. CatSU also produced a topnotcher in the Master Plumbers Licensure Examination through Alec Sidney Pelagio Arcilla, who ranked 6th nationwide.

Across various licensure examinations in teacher education, nursing, and engineering, CatSU consistently posted institutional passing rates above or competitive with national averages. These accomplishments reflected the University's continued commitment to producing competent and highly prepared professionals.

Strengthening Research Productivity and Innovation

Research and innovation continued to gain momentum in 2025. All research outputs completed within the year were successfully delivered, while more than one-third were published in internationally refereed or CHED-recognized journals. Five research centers remained active in advancing scholarly work and innovation initiatives.

The Research and Development Services Office published two issues of the *Uswag: Philippine Journal of Multidisciplinary Research* and a special student research issue, contributing further to the University's growing research culture. Meanwhile, CatSU's *Sentro ng Wika at Kultura* earned the *Selyo ng Kahusayan sa Wika at Kultura* for the third consecutive year, recognizing the University's efforts in language and cultural preservation.

Bringing University Expertise to Communities

CatSU strengthened its engagement with communities through extension programs and institutional partnerships. More than 3,200 beneficiaries were reached through various extension initiatives implemented alongside local, regional, national, and international partners.

By the end of 2025, the University maintained 37 active linkages and continued implementing 23 ongoing extension programs. One of the year's major developments was the establishment of a Food Processing Facility at the Panganiban Campus through the support of Catholic Relief Services, The Church of Jesus Christ of Latter-day Saints, Department of Science and Technology, Department of Trade and Industry, Provincial Disaster Risk Reduction and Management Office, and the Local Government Unit of Panganiban.

Strengthening Systems and Workforce Development

CatSU continued to enhance its institutional systems, workforce capability, and operational efficiency. The University employed a total of 637 personnel in 2025, many of whom pursued advanced graduate and doctoral education.

The University also earned a "Very Satisfactory" rating from the Department of Budget and Management and ensured the release of benefits such as the P7,000 medical allowance for qualified employees.

Advancing Agricultural Development and Innovation

CatSU expanded its role in agricultural development after earning accreditation from the Department of Agriculture–Agricultural Training Institute as Bicol Region's second State University and College Learning Site for Agriculture.

The University also secured a P12.3-million grant from the Department of Agriculture for the implementation of the Livestock Economic Enterprise Development (LEED) Project, which includes swine, poultry, goat and sheep production, stingless bee production, and agricultural equipment to support instruction, extension, and enterprise development.

Continuing Infrastructure Development

Infrastructure development also advanced during the year. In December 2025, the University formally broke ground for the construction of the P10-million Alumni Center, envisioned as a central venue for alumni engagement, activities, and institutional gatherings.

Gaining National and International Recognition

In 2025, CatSU continued to gain recognition for innovation, sustainability, and institutional performance. The University earned the Excellence in Quality Assurance in Teacher Education (EQUATE) Award 2025 for the College of Education–Elementary Level and secured placements in respected international rankings, including the Webometrics World Ranking, Times Higher Education Impact Rankings, and the World University Rankings for Innovation (WURI).

CatSU ranked among the world's Top 400 Most Innovative Universities and achieved strong placements in categories related to Environmental, Social, and Governance (ESG) trends, industrial application, and sustainability funding. The University also received recognition through the Best Public Employment Service Office (PESO) Awards 2025.

Moving Forward

As CatSU closed the year 2025, the University stood stronger and more forward-looking—grounded in its mission of providing accessible and quality education while continuously responding to the evolving needs of society. The accomplishments throughout the year reflected not only institutional growth, but also the collective dedication of administrators, faculty, staff, students, alumni, and partners who continue to shape CatSU into a globally engaged and impact-driven University.

Quality and Relevance of Instruction

KRA1

The University continues to live-up to its vision of being dynamically driven by excellence in its instruction through quality education services provided to its students, making them proactive with their society's needs for development while instilling in them the values and moral principles that make them worthy global citizens.

5-Year Enrolment Growth

The enrollment trends of the Catanduanes State University (CatSU) reflect a period of significant expansion and increasing demand, primarily driven by its role as the premier state-funded institution in the province.

CatSU has maintained a consistent growth trajectory, increasing its student body by approximately 35% in just five years. This suggests that the university is successfully capturing the growing number of high school graduates in the island.

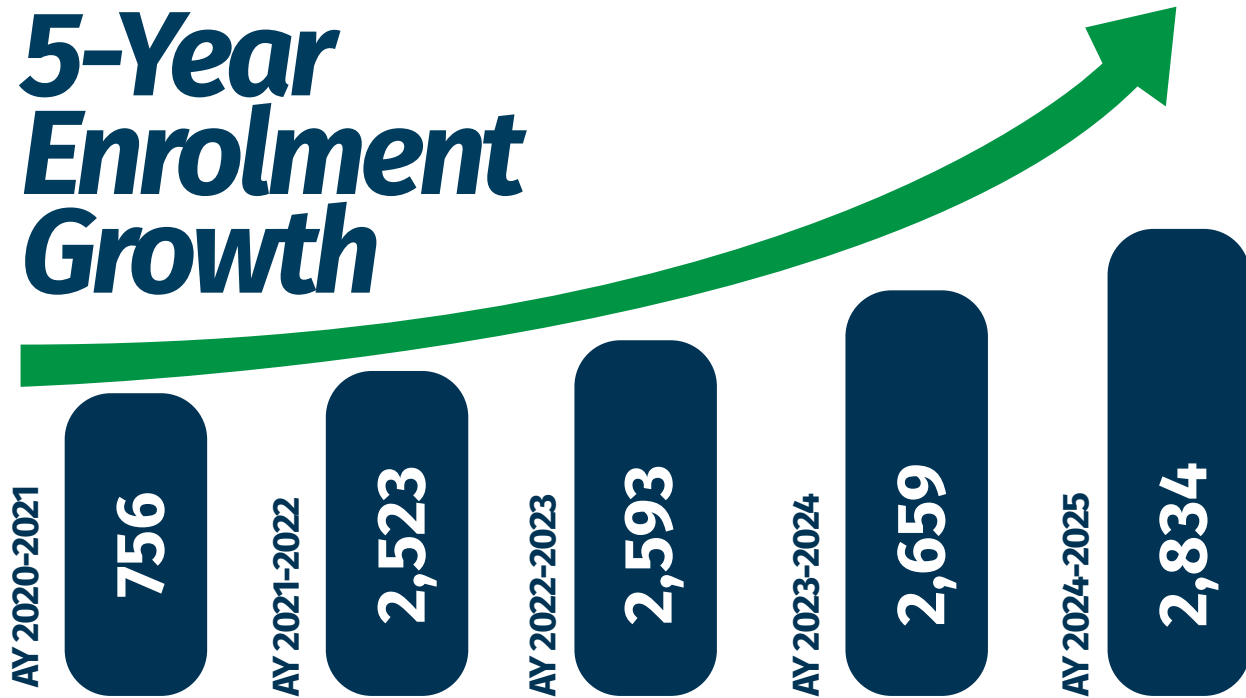

The growth to over 14,500 students aligns with CatSU's strategic efforts to diversify in its offerings. The university has expanded beyond its traditional core programs into more specialized fields in Engineering, Health Sciences, and Technology which attracts a broader demographic of students.

The sharpest increase occurred in AY 2024-2025 (a jump of over 1,200 students). This likely represents a peak utilization of the campus facilities in Virac. The subsequent slight cooling of the growth rate in AY 2025-2026 suggests the university may be shifting its focus from quantity to sustainability and quality control.

As a State University, CatSU benefits from the Universal Access to Quality Tertiary Education Act, making it the primary choice for students in the Bicol region seeking free, high-quality higher education.

Overall, CatSU is evolving from a local college into a major regional hub, managing a student population that is now significantly larger than it was at the start of the decade.

5-Year Enrolment Growth

The graduation data for Catanduanes State University (CatSU) reflects a dynamic growth period over the last five Academic Years. Following the initial disruptions of the pandemic and the transition to the K-12 curriculum, the university has seen a sharp and consistent upward trajectory.

Based on the figures, here is a summary of the graduation trends:

Graduation Trends: AY 2020-2021 to AY 2024-2025

Academic Year	Number of Graduates	Annual Growth (%)
2020-2021	756	-
2021-2022	2,523	+233.7%
2022-2023	2,593	+2.8%
2023-2024	2,659	+2.5%
2024-2025	2,834	+6.6%

The most striking figure is the jump from 756 graduates in AY 2020-2021 to 2523 in AY 2021-2022. This sharp increase (over 233%) likely reflects the “rebound effect” of the COVID-19 pandemic. Many students who faced delays or shifted schedules during the height of the 2020 lockdowns completed their requirements the following year, leading to a massive “catch-up” graduating class.

Following the 2021-2022 surge, the numbers stabilized but continued to climb steadily.

- Between 2021 and 2024, the university maintained a consistent output of over 2,500 graduates per year.
- The most recent data for AY 2024-2025 shows a new peak of 2,834, indicating that the university's capacity or student retention is expanding.

As a leading “Green Research University” in the Bicol region, CatSU's increasing graduation rates align with its mission to provide accessible, high quality tertiary education. This growth is often supported by the Universal Access to Quality Tertiary Education Act, which provides free tuition in State, Universities and Colleges (SUCs), encouraging more students to finish their degrees.

Notes:

(1) Rental

- <> Rental income arises from tenants' rental fees for the use of CBO stalls and commercial center; rental fees by third parties from the use of the gym and auditorium for events; students' monthly fees from the male and female dormitories; and rental payments by Landbank for the International Hostel Building.
- <> Operating expenses include the salaries of the job order employees assigned to the gymnasium, hostel, auditorium and dormitories, as well as the cleaning supplies expense incurred for the maintenance of the rental properties.
- <> Also included in the operating expenses are the depreciation of the rental properties as well as the various equipment located in the auditorium and gymnasium which are used whenever the places are rented out for internal and/or external activities.

(2) Photocopying

- <> Photocopying revenues are computed at a rate of P2.00 per page starting September 28, 2023.
- <> Cost of sales include the costs of copy papers and toners used for the period. Periodic inventory system was used to account for the supplies inventory. Cost of sales also include the direct labor of the machine operator and the electricity incurred by the service center which is based on kilowatt hours used.
- <> Operating expenses pertain to the depreciation of all the copying machines using the straight line method, five years useful life and 5% salvage value.

(3) ID Production

- <> Revenues from ID production are derived from students and employees at P150 per ID printing.
- <> Cost of ID Production pertains only to the supplies used in ID printing: ID Card, ID Case and Printer Ribbon. Spoilage incurred in the normal course of operations are charged to the Cost of Production.
- <> Other income is derived from the sale of ID case at P30 each.

(4) Merchandising

- <> Commission income from consignment came from the sale of consigned merchandise such as books, logos, uniforms for NSTP and PE, as well as the rental for this year's academic gowns.
- <> Labor of marketing personnel pertains to the salaries of the staff directly involved in the merchandising of products.

(5) Poultry - Broiler Production

- <> Cost of sales is composed of the supplies used in the broiler production including the chicken, chicken feeds and vitamins. Also included are the labor costs charged for the time allocated by job order employees to the broiler production which is 2 hours per day.

(6) Poultry - Egg Production

- <> Cost of sales is composed of the supplies used in the egg production including the chicken, chicken feeds and vitamins. Also included are the labor costs of job order employees assigned to the poultry, net of charges to broiler production.
